Supplemental Materials

## B. Research

As part of [evidence-based practice](#), families and practitioners can turn to the best available research to answer questions and solve practice dilemmas. The best available research should be current and of high quality, tell how the practice was implemented and whether it was effective, and be relevant to the situation in the practice dilemma.

Learn more about the effectiveness research on embedded interventions by reading Handout 1.3: Research Summary on Embedded Interventions.

### Supplemental Materials

If you would like to learn more about research on the broader topic of [inclusion](#), read the [Research Synthesis Points on Early Childhood Inclusion](#) and [Research Synthesis Points on Early Childhood Inclusion: What Every Practitioner and All Families Should Know](#). See Supplemental Materials.

### Activities

[Activity 1.9a: Apply the research to practice](#)

### Handouts

[Handout 1.3: Research Summary on Embedded Interventions](#)

Your learners have access to the internet via home computers or the library. So you have decided that you would like to assign Step 3 Evidence, Part B. Research to your learners to complete as an assignment online.

Let's look at [Step 3 Evidence, Part B. Research](#) in Module 1.

# Step 3 Evidence, Part B Research

Part B. Research consists of:

- Written content
- Activity 1.9a *Apply the research to practice*
- Handout 1.3 *Research Summary on Embedded Interventions*
- Supplemental Materials.

After reviewing, you have decided you want the learners to read the written content, the handout, and complete the activity.

# Step 3 Evidence, Part B Research

The screenshot shows a Firefox browser window displaying the 'CONNECT Modules' website. The address bar contains the URL 'dev.community.fpg.unc.edu/connect-modules/learners/module-1/step-3/b-research'. A context menu is open over the address bar, with options: Undo, Cut, Copy, Paste, Paste & Go, Delete, and Select All. A red arrow points from the text on the right to the 'Copy' option in the menu. The website content includes a navigation menu on the left, a main heading 'B. Research', and several sections of text and links.

First, create a link to this page for your learners by highlighting the address bar, and hit Ctrl C or right click and select copy.

# Email to Learners

Second, use Ctrl V or right click and paste the link into an email to learners.

Be sure to also include:

- the learner username and password,
- specific instructions on what items to complete, and
- how your learners should turn in their assignment.
