Instructions

Read [Handout 2.8: Research Summary on Transition Practices in Early Childhood](#). Be prepared to discuss the written responses to the following questions.

1. List examples of transition practices studied through research that were found to be associated with better adjustment and improved learning outcomes.

2. How relevant are the research findings to the context portrayed in the [dilemma](#)? Your response should include a comparison of Melanie's transition situation with the intervention setting and intervention providers in the studies.
